

PHARMASCRIP

For pharmacy operators who care about the audit trail.

pharmascript.app
sales@pharmascript.app

HIPAA-AWARE BY DESIGN

Outsource the route. Keep the audit trail.

Your drivers run PharmaScript. Every signature, GPS ping, and photo flows back to you — geofenced, timestamped, HIPAA-aware.

PHARMACY ACCESS

FREE

WHEN YOUR DRIVERS
subscribe at \$49/mo
NO PER-PHARMACY FEE

SCHEDULE A 30-MINUTE DEMO · NO COMMITMENT · BAA AVAILABLE ON REQUEST

01

PER-PHARMACY REPORTS

End-of-day delivery report auto-sent to your fax or email. Patient names, addresses, signatures, photos — formatted for your records.

02

AUTO-INVOCING

Weekly invoice from each contracted driver. No timesheets, no 1099 reconciliation, no manual delivery counts.

03

6-YEAR AUDIT LOG

Every delivery event timestamped, GPS-stamped, and signed. HIPAA-compliant retention, queryable on demand.

04

GEOFENCED PROOF

Signatures only accepted within 50 meters of the patient address. Eliminates 'never delivered' disputes at the source.

05

CONTROLLED SUBSTANCE LOG

Schedule II-V deliveries get ID verification and chain-of-custody capture automatically. DEA-ready.

06

MULTI-PHARMACY ROUTES

One driver can serve three pharmacies per run. Per-pharmacy audit isolation maintained throughout.

BUILT FOR

Independent pharmacies · Compounding pharmacies · LTC pharmacies · Chains (1-50 locations)

WHY OPERATORS CHOOSE PHARMASCRIP

BAA available on request — Business Associate Agreement signed before any PHI flows.

Works with your existing W-2 drivers OR 1099 contractors — no staffing model lock-in.

No per-pharmacy software install — drivers bring the device, you get the data.

Sub-100ms API response globally — your reports arrive when the route ends, not the next morning.
